Loocafe STANDARD

170 -250Sq feet in size
With Three toilets including disabled Washrooms

Loocafe PINK

Powered by Women, Made for Women. Features for Hygiene and Sanitation

Common challeneges in Indian Sanitation

Challenges

- Open Defecation free standards (ODF++) unachieved uniformly
- Lack of Long-term Sustainability of Public Washroom
- Lack of Maintenance and management
- Unsafe public toilets for Urban Women, Children
- Absence of reek free and uncontaminated toilets

India has always been a pioneer in Sanitation right from age of Indus Valley Civilization

Vision – Swacch Bharat

WHAT?

Total Country is marching towards Clean Living Spaces

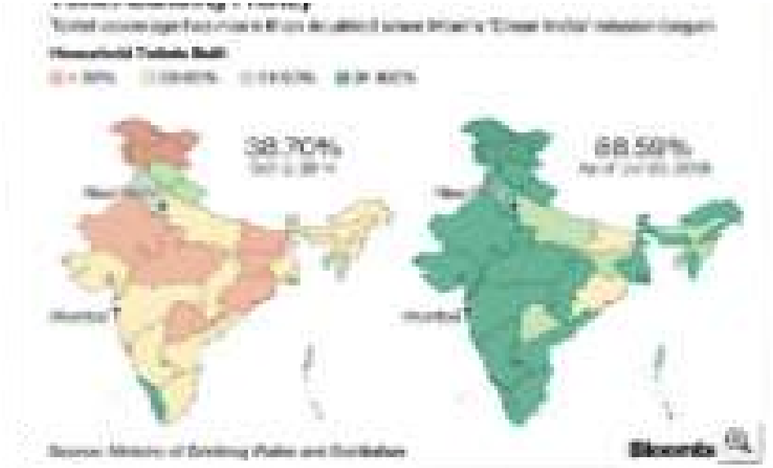
HOW?

Access to Basic Sanitation especially for Women , Children thereby Free from Open Defecation and move further Upwards

WHY?

Huge Opportunity in Sectors of Waste , Sanitation and Plastic Alternatives thru PPE

Market Opportunity



- Governments Mission of Smart cities
- Sanitation Guidelines for ODF , ODF + ODF++ , FSSM
- Failure of Existing PPE models due to Self Sustainability

Our Product

India’s First ODF ++ Complied Free to Use Public Washrooms

Combination of A Loo & Café

Strong Sustainable Model Under Smart Cities Initiatives.

Vision

To provide free-to-use safe, hygienic, and luxurious public toilets that offer a unique and comfortable experience for all.

Mission

Architecting a digital facility ecosystem that would redefine the labelled methods while enhancing the dignity of neglected service staff.

Sustainability: Socially - Economically -Environmentally

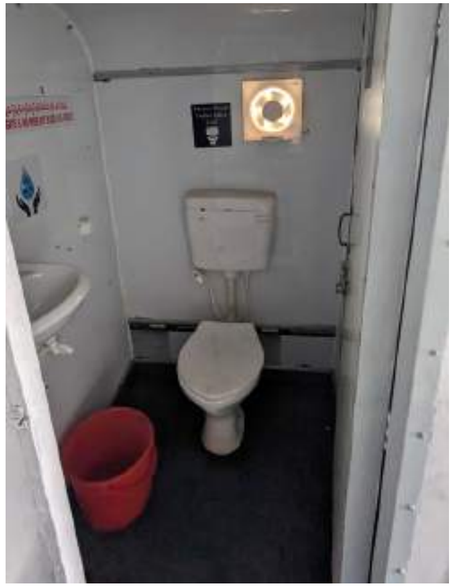
GENERATION 2 REINVENTED TOILET: G2RT

- G2RT is a toilet technology that neutralizes human waste at the source, eliminating pathogens and turning it into ash.
- It doesn't require connection to sewage systems or constant water supply, an off-grid, 0 discharge toilet.
- Supported by various stakeholders & a sanitation mission of over a 1B$.
- The first advacement for deep-tech & technology in sanitation

BUS TOILETS WITH BIO-DIGESTER - MAINTAINED BY IXORA GROUP



BIO TOILETS: EFFICIENT WASTE MANAGEMENT

- Bio toilets: Science-driven innovation
- Specialized bacteria, inoculum used in tanks, converts waste to irrigation water
- Yields 70% methane for energy
- Operates reliably in extreme temperatures
- Loo Café adopts this technology for a more sustainability in the field of sanitation.

Global Movement on Sanitation Tech

Loocafé Units act as an Expiriemental Box to Test Products

Waste Chakra is a clean tech company specialized in the manufacturing of decentralized plastic pyrolysis machines. Our machines convert plastic waste to commercial fuel oil, facilitating sustainable plastic waste management. Our compact machines make sure plastic waste can be treated from your backyard.

Inarah: conversion of feces and urine into charcoal and ammonium sulfate to be sold in local markets. The profits of which will be used to incentivize people to use washrooms and significantly reduce open defecation.

Instagood Provides AFFORDABLE 24/7 Sanitary napkins through Smart Dispenser which would ensure that hassle-free sanitary napkins are available anytime anywhere to women.

Toilet Tales: Stories of 28 street hawkers turned entrepreneurs through Loocafé. Not only is it providing economic support to these vendors, but simultaneously transforms both lives and Telangana's perspective on sanitation and hygiene. It was recognized by various eminent personalities like KTR Sir, Arvind Kumar Sir, Dr. Malini Reddy, and Ma'am Vijayalaxmi Gadwal, Mayor of GHMC

Hyderabad's Loo Cafes now all set to dot scenic Dal Lake in Jammu and Kashmir

HYDERABAD: A Telangana startup has spread its wings to Jammu and Kashmir (J&K) after abrogation of Article 370 by Parliament. The Loo Cafe (public washroom) concept in city will now dot the scenic Dal Lake in Srinagar and the first one will be inaugurated on Gandhi Jayanthi (October 2). This is the first startup from Telangana to set up shop in J&K.

Loo Café: Luxurious washrooms with ATM in Hyderabad

In all, 21 free public washrooms are being built in Jammu and Kashmir and three would be around Dal Lake. The startup has built washrooms in tune with needs of locals. An area for 'wazu' (ablution) has also been built and they ensured even directions of the infrastructure inside the washrooms are as per local preferences.
